Summary

Bilingual (Portuguese and English) professional with technical degree in Aircraft Maintenance Technician and ANAC license to work in the Cell and Motors group. Over 15 years of experience working mainly in the Aircraft Maintenance Technician and Quality Tools areas. I am familiar with Aircraft Maintenance, Periodic Inspections, Systems Testing, Aircraft Receiving and Dispatch, and have always been praised for my exceptional communication skills and motivation to learn. I have solid knowledge about troubleshooting and component replacement, handling hydraulic and pneumatic test adjustments, and ensuring that the plane continues with its airworthiness, following company and customer policies and guidelines. I'm also used to developing new strategies for the team, focusing on quality, safety and deadlines.

In 2022, I decided to move to Ireland to fulfill my dream of leaving abroad and developing an international career. *Now, I am open to positions related to my experience, and I am flexible regarding the job title (available for entry level positions).*

Expertise: Aircraft Maintenance | Periodic Inspections | Quality Control | Systems Testing | Aircraft

Receiving and Dispatch. Career Highlights:

- My training as an Aircraft Maintenance Technician has prepared me to develop an attention to detail which is extremely helpful when inspecting Aircraft for defects and corrosion, maintaining detailed Aircraft documentation to track components and future inspections.
- Experience in working with executive aircraft directly with the client and always seeking to meet deadlines and quality.

EDUCATION

- Mechanical Maintenance Technician for Industrial Machines | SENAI, Brazil | 2006 – 2010
- Aeronautical Trainee | SENAI, Brazil | 2009 – 2013
- Aeronautical Maintenance Mechanical Technician | Fenix School | 2009 – 2013
